# LENNOX' ELITE® SERIES HEALTHY CLIMATE™ MEDIA AIR CLEANER. THE CHOICE FOR REMOVING DUST AND OTHER PARTICLES IN YOUR HOME.

Lennox' Healthy Climate™ high-efficiency media air cleaner is an effective air filtration system. It improves the air you breathe by trapping even the smallest of particles and bioaerosols—irritants that most standard filtration systems simply can't stop. And the longer it's used, the dirtier it gets, the more efficient it becomes\*. So if you're concerned about dust accumulating in your home, this is a product that can help.

\*The system's filter will eventually need to be replaced so that it doesn't affect the efficiency of your HVAC system.

The high-efficiency media cleaner easily attaches to your existing heating or cooling system. No electrical service is required, and maintenance is simply a matter of changing the disposable filter. To increase air purification, combine the high-efficiency media cleaner with a Healthy Climate Germicidal Light. Ideal for tight spaces, the Germicidal Light can be installed within 12 inches of the media cleaner.

## HC PMAC-12C/20C High-Efficiency Media Air Cleaner

- ◆ High-efficiency MERV 10 collapsible filter
- ◆ Metal door with foam insulation
- ◆ Filter has enhanced UV light resistance preventing degradation
